Re: NOTICE OF EX PARTE PRESENTATION
WT DOCKET NO. 10-4

Dear Ms. Dortch:

While attending the International Wireless Communication Expo conference in Las Vegas, Nevada on February 22, 2012, James Wilson, President of Wilson Electronics, Inc. ("Wilson"), had a conversation with Joyce Jones of the Mobility Division of the Wireless Telecommunications Bureau regarding the status of Wilson's response to a Commission inquiry concerning the extent to which signal boosters can improve wireless broadband coverage. Mr. Wilson informed Ms. Jones of the results of the field tests that Wilson had completed to measure the impact of signal booster on wireless coverage and connectivity. A report on Wilson's findings is being filed electronically in WT Docket No. 10-4 simultaneously herewith.

Should any questions arise with regard to this matter, please direct them to me.

Very truly yours,

Russell D. Lukas
